Re z
C_R^+
C_2
C_1
C_R^-
cut of $G_q(z)$: $[-3, 3]$
cut of $G_{q+Q}(z + i\nu_m)$: $[-3, 3] - i\nu_m$
C_2, here the dumbbell $C_{0.2}$
$C_1 = C_2 - i\nu_m$
C_R^+ : upper half of C_R
C_R^- : lower half of C_R
poles of f: $\pm i$, $\pm 3i$
